## FOCH PREPARES FOR A MIGHTY SMASH

### PEACE PLAN OF AUSTRIA HAS FAILED

PEACE OFFENSIVE OF CENTRAL POWERS HAS COLLAPSED—PRESIDENT WILSON'S PLAT REPELLED THE CAUSE.

### SITUATION NOW CLEAR

President Warns Austria That Future Suggestions Must Be Based on U. S. Plans—Action Has Strengthened U. S. Morale.

(BY ASSOCIATED PRESS.)  
Washington, Sept. 17.—The peace offensive of the central powers has completely collapsed. It can be renewed only by them accepting the basic suggestions for ending the war promulgated by the United States. No attention will be paid to any maneuvers in the future unless the Teutonic allies comply with the conditions that are known to the entire world.

That was the position of American officialdom today. President Wilson's action in setting aside all binding red tape and squarely warning Austria that a subject on which the last word has been said, will not be re-opened for quibbling, has cleared up what might have proven an ugly situation.

The slightest evidence of temporizing would have been seized upon by the Austro-German control as proof that there was a weakening in the war aims of the allies. But there can be no misunderstanding of the fact that the rejection of the Austrian ultimatum offer. The United States "will entertain no proposal for a conference on a matter concerning the peace of the world," said the president. That single sentence closed the book. Until the central powers are willing to meet the terms of the United States and the allies, the war will continue.

Nothing that has transpired to date in the war has had such a strengthening effect on the morale of the nation, as the president's action. The prompt action of President Wilson. Fears had been entertained in many quarters that he would feel constrained to give at least a few days consideration to the Austrian offer. However, he did nothing of the kind.

With the unofficial copy of the proposal at his disposal, the president yesterday carefully read it through several times. Then he dictated the reply and sent it across to Secretary of State Lansing. The Swedish minister for transmission to Vienna via Stockholm as soon as it had been determined that the official copy of the document did not differ from the unofficial one.

No opportunity was given to any enemy of the United States to misrepresent this country's position in any language. There were no loop holes for continuing the exchanges. Until Austria and her allies are ready to accept the position of the United States, there can be no further official exchanges.

Incidentally, by acting immediately, President Wilson raised in the bud any effort on the part of the pacifist elements in this country, England, France or other entente nations to interpose to the cry of peace. The president's action was given in the secretary's office by the president's advisers who believe that in answering the note he should again set forth the peace aims of the United States and the allies. The president's action was given in the secretary's office by the president's advisers who believe that in answering the note he should again set forth the peace aims of the United States and the allies.

It is now expected that Germany will see fit to repudiate its attitude in the note. That has been the hope of the peace makers who were put forth and failed. However, such action hardly can improve internal conditions in Germany, in the opinion of officials here.

Complete endorsement of President Wilson's rejection of the Austrian proposal for secret and non-binding peace discussion was given in the senate today by Senator Lodge of Massachusetts, republican floor leader and a head minority member of foreign relations committee.

Senator Lodge said the president's proposal was a "red herring" and that he and he was sure it would receive universal approval. America's position is becoming so plain the central power leaders will begin to understand it. Germany having wrought unnumbered woes upon an innocent world and appealed to the just of conquests he could not but be a loser and a loser.

He said he believed the president's action would put an end to loose and feeble talk about peace by German agents. Balfour's Opinion.

London, Sept. 17.—In his address today voicing his personal view that such a conference as Austria Hungary suggested would be useless foreign Secretary Balfour expressed his opinion to the return to Germany of her naval basis in various parts of the world. (The text of this portion of Mr. Balfour's speech received today shows that the foreign secretary went

somewhat further in his discussion of the subject of German colonies than the first report indicated.)  
"Germany," said Mr. Balfour, "is going to insist on the return of her colonies. Here again is a point on which there can be no misunderstanding. Germany's stand on one side and the allies on the other. I say it is impossible to conceive any conversation can bridge over a difference so deep or to restore to the powers of Germany the same position of equality as she has now. To give to Germany control over her naval basis which can give her control of communication not only between the civilized nations of the world."

### SOCIALIST LEADER CLAIMS GERMANY MUST DISSOLVE DIET

Amsterdam, Sept. 17.—Peter J. Troelstra, the Dutch socialist leader, who recently was refused admission to England on the grounds he had German sympathies, announced he conferred Friday with Frederick Ebert, chairman of the German Reichstag and the president of the Reichstag, on the subject of the Reichstag's dissolution.

"If the deliberation of Prussian upper house as I assume will fail to lead equal suffrage and if the government should not dissolve the diet, we shall take an attitude of sharpest opposition to the government. Regarding the Brest Litovsk treaty, I refer you to Herr Schiedeman's declaration in his report of the council of the Reichstag. There certainly is no question of unconditional adherence to our Stockholm memorandum."

"I have stated we are ready at an international conference to place ourselves on the basis of mutual respect and equality. The Dutch Scandinavian committee of Stockholm. That is to say we make this memorandum our own except as regarding the question of Belgium and Alsace Lorraine. Regarding Belgium, we differ only from the neutral memorandum on the question of compensation. This, however is a question that attempts must be made to reach a compromise by verbal discussion. We must make our standpoint when the time is debated."

### BULGARIAN TROOPS ON WESTERN FRONT

(BY ASSOCIATED PRESS.)  
Amsterdam, Sept. 17.—Bulgarian reinforcements have been ordered to cooperate with the German troops on the western front, according to the Echo Belge.

Washington.—Unofficial reports that Bulgarian troops have appeared on the western front attracted attention here today but the question of adding Bulgaria to the central powers is not being considered until there is official reports on the subject. It was recalled to the state department today that investigation provided a similar rumor untrue several months ago.

### TWO GERMAN MACHINES DOWNED AFTER FIGHT

(BY ASSOCIATED PRESS.)  
Paris, Sept. 17.—Two German airplanes which had participated in the raid in the region of Paris, Sunday night, were shot down by anti-aircraft guns. They fell in the forest of Compiègne.

This makes two of the enemy's raiding machines accounted for by the French. A dispatch last night announced one of the big planes was shot down by direct shot from the anti-aircraft defense of Paris, falling in one of the northern suburbs. The bodies of an officer and two men were found in the wreckage.

### FIVE NEGRO SOLDIERS EXECUTED THIS MORNING

(BY ASSOCIATED PRESS.)  
San Antonio.—The five negroes whose sentences to death were pronounced by a military court in the Houston riot and whose sentences were approved by President Wilson, were hanged at Fort Sam Houston at daybreak this morning.

### MUNICIPAL BONDS WILL BE LEVIED

(BY ASSOCIATED PRESS.)  
Washington.—Provisions of the war revenue bill, levying federal income taxes on future issues of state, county and municipal bonds, were approved today by the house. A motion for their elimination being defeated 132 to 61.

### FRENCH AND SERBS TAKE 3,000 MEN

LONG REIGN OF QUIET IN MACEDONIA BROKEN BY ACTIVITY OF ALLIED TROOPS THERE.

### ADVANCE FIVE MILES

Front Now Extends Over Twelve Miles—Bulgarians Forced to Give Up Several Important Series of Ridges.

In Macedonia the allied forces continue their offensive against the Bulgarians with success. Important positions have been taken and more than 3,000 prisoners captured.

So successful was the first thrust of the Serbian and French troops in the Sokol region of the Macedonian front, that the attacking front has been extended to more than twelve miles, on which he allies have advanced northward more than five miles. Several series of ridges have been given up by the Bulgarians, who also have lost the village of Gradsmitcha. A Jugo Slav division is fighting with the allies and has reached the important height of Kozia.

The Bulgarian war office admits the allies have progressed in the mountain region east of Monister, but says they suffered heavy losses. A Serbian official statement says the allied losses have been quite small.

Continue Offensive  
Serbian and French troops continue the offensive in Macedonia and have progressed more than five miles according to Serbian official statements received here. The attacking allies have occupied an important series of ridges.

Official Statement.  
Sophia, Sunday, via London.—French-Serbian troops in an attack on the Bulgarian line in Macedonia early Sunday morning, succeeded after a desperate struggle in occupying the Sokol, Doprpolie and Vetrinik position says today's war office announcement.

The repulse of the attack on the Bulgarian line on the Macedonian front to the north of Gradsmitcha is stated in the official statement issued by the Bulgarian war office today. The statement reads:  
"Enemy battalions attacked position north of Gradsmitcha several points but were repulsed with heavy losses. Several French prisoners remained in our hands."

More than 3,000 prisoners and twenty-four guns their casualties have been slight. The allies are moving forward on a front of more than five miles and have taken the village of Gradsmitcha twenty miles east of Monister. A Czech Slav division is fighting with the allies and has reached the important position in the region of offensive.

### Harmony Apparently Prevails at State Political Meetings

(SPECIAL TO THE GAZETTE.)  
Madison, Wis., Sept. 17.—The spirit of harmony is apparently hovering over the political conventions which convened here at noon today. There will be little except perfunctory work until late in the afternoon and no party republicans are likely to be adopted before evening. George A. West, Milwaukee, will be chosen as the republican state chairman. He came to the convention determined that he would not serve again, but anti-factorialism seems to have agreed upon him. West says the platform will be short, snappy, and patriotic.

Senator I. L. Lenroot wired today that he would not be able to attend the republican convention owing to illness. Senator Wilcox and J. N. Tittemore are apparently co-operating in the drafting of a platform on which all can give united support. "The convention will adopt a thorough 'Going to Win the War' platform," said Chairman George A. West today.

The republican convention was adjourned until 2 o'clock without passing any resolutions. This move was taken so as to allow absent members to arrive. The Wilcox following are attempting to get control of the party machinery. Senator Henry Burnett, Ironwood, will be the Wilcox man for temporary chairman of the convention. The Philipp and Tittemore men are seeking a compromise between the two factions. River Falls, had been agreed upon, but up to noon, he had not arrived. The second choice on the compromise states Lieut. Governor E. P. Dillingham, Barrabett, Wisconsin, are that it will take all night to frame the platform after the convention is once organized.

### BUMP STREETCAR ENDS IN DESERTER CONFESSION

(BY ASSOCIATED PRESS.)  
Cleveland, O. Sept. 17.—Pride in the khaki caused the downfall of a young Minneapolis man here. He started across the street and failed to observe traffic rules, as he was dressed as a soldier and felt that he ought not to be asked to hurry. A motorist tried to warn him, but he started too slow and was knocked down by the street car. Examination at the hospital show that he was not severely injured, but the bump jarred a confession out of him—that he was a deserter and was trying to make his way home. He is being held for trial before a court-martial.

### UNUSUALLY QUIET DAY FOR YANKS

LITTLE INFANTRY ACTIVITY AND ONLY MODERATE ARTILLERY ACTION REPORTED IN LORRAINE—HUNS SHELL TWO TOWNS.

### ENEMY IS DIGGING IN

Makes Ready to Stand Behind Hindenburg Line. Extensive Bombing Carried Out by Yanks and English.

(BY ASSOCIATED PRESS.)  
With American Army in Lorraine, Sept. 17.—Today was the quietest day on this front since the beginning of the offensive last Thursday. There was little infantry activity and only moderate artillery action.

Pont-a-Mousson and Deulouard, four miles to the south were shelled by the enemy who mixed in a few mustard gas projectiles with the other shells. The Germans were apparently digging themselves in behind the Hindenburg line today.

Bombing Raids  
American and Allied aviators carried out extensive bombing raids on Bayonville, Frescat, Sarons, and the division of Metz this afternoon. Fire was observed at Chateau. One German balloon near Pery was hit.

Lieut. Duckstein, observer and Lieut. Richardson, pilot, were attacked by an enemy machine bearing French markings. They were forced to land inside the American line, but were uninjured. An American balloon was shot down yesterday, but the observer escaped safely by parachute.

Whole Division Captured  
Evidence is accumulating that the enemy intends withdrawing behind the Hindenburg line in Lorraine if he is pressed any further. He is burning towns along the Meuse. Prisoners taken report the entire artillery of 31st German division was captured in the American operation on this front.

The division was to bear the blunt of the attack in the plunge in the salient east of St. Mihiel. It appears the 35th American division. It was ordered to maintain a holding action until all German troops were withdrawn. In consequence it suffered very heavy losses, especially in prisoners.

### Yankees Mystified at Shells Fired by Huns Which Fail to Explode

With the American Army in France, Sept. 17.—American artillery forces estimated recently at a certain stage of German retreat north of the Marne from fifty to seventy-five per cent of the shells fired by the enemy failed to explode. One night after the Germans crossed the Vesle, the enemy fired 72 shells of large calibre into a wooded tract where American troops were supposed to be holding. Artillery experts had one of the experts engaged, reported that only four of these shells had exploded.

None of the American officers suggested that the German shells were deteriorating. There had been day after day of rain during the retreat, and it was believed quite possible in the withdrawal the Germans had not been able to make the usual precaution against dampness, the result being many projectiles from some of the big guns failed to explode. One official suggested probably the Germans had been firing old shells rather than new shells at all, the officers realizing only a few of them were exploded but preferring to keep the big guns pounding away, thereby in the end putting the rear guard fight. The average number of faulty shells generally is from two to six per cent.

### ARRANGING NEW TREATY WITH HUNS

IN AN EFFORT TO RETAIN PART OF RUSSIA BOLSHIEVSKI GOVERNMENT IS ARRANGING NEW PEACE WITH CENTRAL POWERS

### POSITION IS DANGEROUS

Position on Czechoslovak Front Is Daily Becoming More Acute—Must Conclude Peace Immediately.

(BY ASSOCIATED PRESS.)  
Washington, Sept. 17.—Desperately struggling to maintain control of at least a part of Russia, the Bolsheviki government today is reported to be arranging a new treaty with the central powers. This treaty is believed here to be designed to secure German and Austrian help to try and regain control of the territory where the revolutionary movement is gaining strength. Amsterdam dispatches today make plain the position of the German controlled Bolsheviki. Nikolai Lennine, the Bolsheviki premier, is quoted as saying:

Position Explained  
"The position on the Czechoslovak front is daily becoming dangerous. We are daily becoming increasingly aware that alone we are powerless. For the Soviet government there is only one way out, to conclude a defensive and offensive alliance with another power."

Means Germany  
The power he means, officials say, naturally is Germany. But it is considered here as very unlikely that Germany can spare any men to amalgamate with the Russians. It also is said that the Russians are not in a position to follow Lennine and Trotsky much further. Confidential information reaching this city shows that they are maintaining the most active revolutionary movement in the Ukraine which is daily becoming more and more formidable.

The entire general Russian situation officials believe is becoming less and less favorable to the central powers, and it will be utterly impossible to organize the Russians as an Austro-German reserve.

### Reports Claim That Wholesale Executions Are Rapidly Increasing

(BY ASSOCIATED PRESS.)  
Stockholm, Sept. 17.—Wholesale executions are increasing in Petrograd, according to a private telegram received here by way of Helsingfors. During the past week a more than 1,000 persons were executed and more than four hundred others are on the prescribed list. Most of them already have been made hostages. All persons of the much-criticized state have been imprisoned regardless of their political views.

### CAR SHORTAGE PREVENTS MOVING OF SCRAP METAL

(BY ASSOCIATED PRESS.)  
Cleveland, O. Sept. 17.—With scrap metal commanding an exceptionally high price, dealers here are unable to move their stores to foundries and industrial plants nearby that would use them, it is said. There is said to be such a shortage in both men and cars that the scrap machines cannot be moved to the plants and that formerly gathered scrap for sale are unable to handle it.

Before the war \$10 was considered a fair price for scrap metal, but with the price now at \$25 thousands of dollars worth of metal lying where it is on account of the shortage of men and cars.

### SECRETARY BAKER WILL AGAIN GO TO THE FRONT

### CORPORAL KILLED AFTER TRYING TO BEAT OFF GERMAN

(BY ASSOCIATED PRESS.)  
London, Sept. 17.—With all his comrades killed or wounded, Corporal Kable of a Quebec regiment maintained on a trench parapet with his Lewis gun to meet a German attack. He emptied magazine after magazine into the advancing enemy finally falling backward into the trench mortally wounded. The Germans turned and retreated at Kable fired his last cartridge. The gallant Canadian, who has been decorated with the Victoria Cross died from his wounds shortly afterward.

The Victoria Cross also has been awarded to Sergeant Melkie of the Seaforth Highlanders. Melkie stormed single handed an enemy machine gun. He next attacked the crew of a machine gun with his revolver and when it was empty he put the rest of the Germans out of action with a heavy stick. Later he again attacked and with a stick and a bayonet from a fallen comrade. He was killed as he reached the enemy position.

### New York Editor Surrenders to Police After Killing Wife

(BY INTERNATIONAL NEWS.)  
New York, Sept. 17.—Charles E. Chapin, city editor of the New York Evening World, who had been sought since his wife was found dead from a bullet wound in the head, in a local hotel, surrendered to the police early today. Mrs. Chapin was Nellie Bebie of Chicago.

Mr. Chapin had been in a highly nervous condition for several months. The tragedy was discovered through a letter to one of his associates on the Evening World. In the letter Mr. Chapin indicated that he was about to take his own life and the life of his wife. He spoke of severe pains in his head and expressed the belief that he was losing his mind, and that a nervous breakdown which was becoming worse.

"When you get this letter," he wrote, "I will be dead. I am a good man. I cannot leave her alone in the world." The hotel authorities were communicated with. The Chapin apartment was entered and Mr. Chapin's body was found. A general alarm was sent out for Mr. Chapin, charging him with homicide.

Mr. Chapin was a grand nephew of the Russell Sage. He inherited \$25,000 under the Sage will, but started a legal movement to break the will. Mrs. Sage compromised Mr. Chapin received \$10,000 of his salary had amounted to \$20,000 a year for several years.

Mr. Chapin is 47 years old and his wife was a few years younger. He had been in a nervous condition for several months. He was a grand nephew of the Russell Sage. He inherited \$25,000 under the Sage will, but started a legal movement to break the will. Mrs. Sage compromised Mr. Chapin received \$10,000 of his salary had amounted to \$20,000 a year for several years.

He was placed under arrest. "I don't remember anything about the night," Mr. Chapin said to the policeman in whose charge he was placed. "I had no recollection of having killed my wife until I saw the morning paper. I was called in Prospect Park (Brooklyn) yesterday afternoon and putting the pistol to my head and firing one shot. Afterwards I saw the policeman and left the park. I haven't slept since that day."

A fully loaded 38 calibre automatic revolver was then handed to the policeman by Mr. Chapin.

### BOY DIES UNDER WHEELS OF WAGON

Milwaukee, Sept. 17.—Running after a wagon in an attempt to ride on the wagon, Frank Swiderski, 5 years old, son of Mr. and Mrs. George Swiderski, was killed almost instantly when he fell underneath the wheels of the wagon and was run over on North Pierce street, early Monday afternoon.

He was taken to Emergency hospital where he was pronounced dead. He received a crushed skull, broken back and crushing injuries to his chest.

According to the police, the wagon which is owned by the C. Hennecke company, and was driven by Michael Buraczewski, 38 Locust street, was proceeding north on North Pierce street, when the young boy suddenly ran into the road, toward the wagon. Within a foot of it, the police say the boy slipped and fell directly under the rear wheels.

When an automobile truck which he was driving was struck by an east bound Milwaukee road passenger train at Thirteenth street and St. Paul avenue, Herman Katch, 46 years old, residing at 434 Second street and 404 W. Lac avenue, an employee of the North Avenue Fuel company, suffered a possible skull fracture and injuries to his body late Monday afternoon.

### PARDONED BY WILSON, DIES SHORTLY AFTER

(BY INTERNATIONAL NEWS.)  
Atlanta, Ga. Sept. 16.—Less than twenty hours after a pardon by President Wilson had reached the authorities in charge, Karl Buenz, aged seventy-four, a German, serving a sentence at the federal prison near Atlanta, died of stomach trouble late yesterday. Buenz was convicted of German minister to Mexico and at the time of his arrest held a high position with the Hamburg-American Steamship company in New York.

### ACTIVITIES MAY MEAN NEW BLOW

MARKED ACTIVITIES ALONG ENEMY FRONT PRELUDE SAGE MIGHTY OFFENSIVE AGAINST GERMAN SOON

### GAIN VANTAGE POINTS

Important Positions From Which Next Assault Can Be Launched Are Taken By Allies In Local Activities.

(BY ASSOCIATED PRESS.)  
It now seems probable that a new and mighty blow against the Teutonic armies in France will be the allies' answer to the peace proposal voiced by Austria on behalf of the central powers. From the sea to the Swiss frontier there is a tension which may forbid another development of Marshal Foch's masterly offensive. All along this battle line there has been local action by which the allies have tried out the German positions and gathered points of vantage from which to launch their next assault.

Straightened Line  
General Pershing's first American army striking before the fortress of Metz has straightened its line across the face of the St. Mihiel salient. It is known there is a heavy concentration of German troops and it is expected the Americans will not give the enemy much time to recuperate before delivering a new blow against this bastion of the German position on the western front.

In the Vosges  
In the Vosges region there is great activity by the enemy, who evidently expect to attack the American lines to the west of the Rhine. In this sector of the battle front the Americans are standing on German soil and it is very much to be expected that they will carry the war nearer to the heart of Germany than elsewhere along the line. The country to be traversed by an army of the allies is very rough and lends itself admirably to defensive operations.

May Strike Soon  
Marshal Foch, now may elect to strike to the west of Verdun where the German positions have been seriously shaken by the American victory at St. Mihiel. An attack from the Verdun region was expected three weeks ago, after the British and French advance in Picardy and Santarre had slowed down. It would have been a very effect if it could succeed, and probably would compel a German retreat from the region north of Rheims, as well as a relocation of the enemy's lines around Verdun, which is a sector line seems to be vital to the enemy's position in eastern France.

In the Flanders area the British have nearly reached the line they held when the Germans launched their attack in April on each side of Arras. This, too, is a sector where an allied offensive may be expected.

### Unfair Methods Used by Motion Picture Industry Squelched

(BY ASSOCIATED PRESS.)  
Washington, Sept. 16.—Unfair methods of doing business in the motion picture industry were squelched by a decision made by the federal trade commission here today. The Stanley Brothers corporation, of Philadelphia, whose case is considered a "text" to govern the industry throughout the United States, is ordered to resist from the following practices:

"Procuring cancellation of contracts for pictures booked previously by competitors; taking motion pictures from the exhibitors' stock from competitors; offering exclusive bookings to prevent competitors to book their pictures with the same exhibitors; making threats and intimations to such exhibitors of loss of picture supply, and threatening producers with loss of business."

### GREAT QUANTITY OF CLOTHING NEEDED FOR DESTITUTE BELGIANS

(BY ASSOCIATED PRESS.)  
Washington, Sept. 17.—5,000 tons of clothing for the destitute people of occupied Belgium and France is the subject of a campaign launched today by the American Red Cross for the week beginning next Monday. The clothing drive of the Red Cross last March brought in 5,000 tons of garments and it is estimated at least a much more will be required to clothe the ten million people in the occupied territory during the coming winter. As in the previous campaign the clothing will be collected by the chapters of the Red Cross throughout the United States.

### BRITISH CONTINUE TO GAIN GROUND

London.—Last night witnessed a further closing in of the British line northwest of St. Quentin. British Marshal Haig in his report today announced that the British had made progress in this area in the direction of LeVerkour. The advance of the British yesterday in Flanders was pressed along the Ypres Menin road and carried the British to within a miles of Rooge.

### FLYING FISH THICK ABOUT THE EQUATOR

Evansville, Sept. 17. Telling of his trip along the Mexican and South American coasts and of the flying fish which are plentiful down there, John C. Kennedy of the United States navy and formerly of this city, writes a most interesting letter to his parents. The letter was written in July and was received the first week in September. It follows:

1,500 Miles Off Mexico, July 20, 1918.  
Dear folks at home: Suppose you think I'm slow about writing, but it would do no good to write, because there has been no chance to do it. I haven't seen mail since the 5th. At ten miles from Panama, the nearest port, and it will be eight days before we get to Chile, where we are bound for. Guess from there, I think we will go to New York. The weather is getting cooler as we go south. The thermometer only registered 115 degrees in the engine-room this morning and it has been up to 137, but the sun here is fine. I suppose the weather up there is fine now. It rains here half of the time. You can tell when it's going to start now. Well, cross the equator some time Sunday, I guess.

The flying fish are thick down here. They go in schools and rise up ahead of the ship and fly sometimes forty rods, sometimes more. They are about a foot long. One of the officers is looking for Spanish mackerel. Yesterday he caught one and it took four of us to haul him in. He must have been six foot long. The hook tore through his jaw when we lifted him, so I guess you'll say the big ones get away.

Well, were at Panama, and it sure is a nice place. I guess I can mail this here. I don't know whether you'll ever get it or not as none of them was can talk English and it's hard to understand. I'll write again when we get to Panama or New York, or wherever we "hit."

So long,  
JACK.

### GOVERNMENT WANTS NUT SHELLS AND FRUIT PITS

The government is calling at this time for fruit pits and nut shells to be used in making the charcoal used for war masks. The school children have been asked to co-operate and so an appeal is sent out to housewives to save these and see that they are placed in the receptacles provided for them. There will be a barrel in front of the Helms Seed Store on South Main street and one at each of the high schools. The pits and shells should be dried in the sun before brought in so they will not draw flies.

### EVANSVILLE MINISTER WOULD BECOME CITIZEN

Rev. Hugh Alexander Misdall, pastor of the Methodist church at Evansville, has applied to Circuit Court Clerk Jesse Burle for his citizenship papers. Born in England, he came to this country in 1906 and was granted his first papers several years ago. Judge Grimm will consider his application for second papers at a special naturalization day to be held February 26, 1919.

### ESCAPED LUNATIC TAKEN BACK TO STATE ASYLUM

William Cox, an inmate of the State Insane Asylum at Mendota, who escaped from the asylum and was found by the police here last night, was taken back to Madison this morning. Cox is not of a violent nature, having wandered away from the asylum when at liberty on the ground. He was taken to Mendota by an attendant from the asylum who came for him this morning.

Would Wed. Applications for marriage licenses were received this morning from Joseph Madison and Ida Madzwin, both of Rockford; and from William H. Cunningham and Hettie Mead, both of Deloit.

## HUNS IN TERROR OF AMERICAN FIGHTERS

German Prisoners Call Yanks "Devils" Priv. Nelson J. Horn of Company M Says In Letter.

Because Hun bullets fail to stop the Yanks when attacking, the Germans are calling the American fighters "devils." Germans taken prisoners say about the Americans, "We shoot them down and they get right up and come after us again."

Priv. Nelson J. Horn, Janesville soldier in Company M, in a letter received here, tells of hearing this estimation of the Yankee fighters from German prisoners taken in a drive in which he was engaged. Writing under date of Aug. 8, Private Horn describes an American attack which drove the Germans so fast before them that they had difficulty in keeping up. His letter reads:

"It may be a long while, many times before you hear from me; but never mind, we will be home very shortly, for if you could only see the way we are driving the Germans back at the present time you would be very much surprised."

Our bunch just got back from the front, and the little time we were there we drove them back more than twelve kilometers, which is about seven and a half miles, and they are going back at the present time. The Germans think we are devils, for they say, "We shoot them down and they get right up and come after us again."

Well, I hope that they keep going back in the future as fast as they are at present, for if so we can end this war in short order.

"We are now stationed in one of the towns we took just lately, and when taken it was certainly a wreck, but it is now a very busy place, where are even French civilians living here already."

"I will try and tell you as many of my experiences that I had while in the last drive as I can. We were given orders one morning to attack, and so we marched up to where the attack was going to take place, and there formed our line and away we went. We kept right on going through their machine gun fire, and finally gained our objective, with but a few losses. Then we went on to attack again. But the Germans had retreated so far ahead that we did not catch them that night, so we stopped to get what little sleep we could before daylight."

"The next morning we moved ahead about four kilometers and stopped there until evening. We then received orders to attack so we got all ready and made a charge and in one great charge we advanced right through the German barrage for a ways, and then we not only had to face the shrapnel, but also the deadly machine gun fire. This was kept up for some time, when the Germans decided to stop. We were too strong for them so they retreated again."

"That was the last drive we made, and believe me we got all of the shrapnel, machine gun fire and gas we wanted for some time. But we are waiting for one thing and that is that our enemy get just as much and more than we did."

"I pulled through the attack without a single scratch, but some came mighty close. We are now seeing the worst of it, but I am sure that some day in the near future we can enjoy the pleasures of life—but not until this so-called Kaiser is a goner."

"I regret that I could hold such hate against any person as I do him."

"You no doubt have read in the papers of the death of Lieut. Quentin Roosevelt, whose machine was brought down behind the German lines. I have been able to see his grave. I have a few souvenirs and am sending you a piece of canvas from the wing of his airplane. The red is part of the French emblem, by which to identify the planes when in the air."

"We now expect to go back for a little rest, and also to replace the division so we will be by that time strong and fresh, ready for the time when we shall fight some more of the Germans."

St. Patrick's Court No. 318, W. C. O. P. E. All members are requested to be present Wednesday evening, September 18th, at seven-thirty, as a matter of importance will be discussed at the meeting. Mary Baber, R. S.

CHICAGO MARKETS  
Cattle—Receipts 10,000 head sold at \$19.50, a new record and \$21 was bid for hogs, but a sale at that figure was not consummated, 20.00 being the outside price, although it was, also a record.

The specialties were in a class by themselves, but on the rank and file there were too many kinds of meat to warrant hard-fought quotations. Wilson and Morris paid \$19.50 for New York kosher cattle, one load being contributed by H. J. Buck of Westside, La., the other by Frank Smith of Bagley, Ia.

All western markets were again full of bovine junk, and while cattle above \$17 were strong to 25c higher nobody pretended to know what cheaper grades were worth.

Receipts Mostly Canners  
Minnesota, Wisconsin and the Dakotas filled the hopper with trainloads of it being merely canning material.

Western cattle repeated at \$18, and anything with sufficient weight to make an army advance was wanted. The dollar advance in hogs here last week attracted western Iowa shipments, but results showed that every hog was needed.

The hog market was strong, but was under all through. Armour got in late, paying \$17.75 to \$20.50, and everybody needed a few.

Refusal of Colorado feeders to contract on the range at present prices is responsible for a heavy run of thin western stuff at Chicago, Omaha and Kansas City. Normally this stuff is weighed in at various points through northern Colorado, whence it moves to market ready for the butcher during the January to May period. Colorado feeders insist that \$12 is a reasonable limit on the lambs.

These lambs are expected to avert further destination of beef herds in the southwest.

Iowa and Illinois feeders have absorbed over a million head at \$17 @ \$17.75, but show signs of wearying.

U. S. Begins Loans Soon  
The War Finance Corporation expects to begin loaning money on \$100 million in 10 days. All loans must have a maturity not later than November, 1919, the security to be at least 80 per cent of the face stock pledged as collateral. The Kansas City agency will handle the business of the federal reserve districts of St. Louis, Minneapolis and St. Paul, and the Dallas agency that of the Dallas and Atlanta districts.

These loans are expected to avert further destination of beef herds in the southwest.

Choice to prime steers \$15.65 @ 19.50  
Good to choice steers 17.75 @ 18.65

Good to choice calves 18.00 @ 19.35  
Calfers 10.00 @ 11.00

A run of 27,000 hogs found a nervous market. Traders were afraid of the game, otherwise a \$21 deal would have been made. The best sold at \$20.50, with the bulk at \$19.75 to \$20.50, anything above the latter figures being selected.

Choice to prime light \$20.80 @ 20.95  
Good to choice medium 20.80 @ 20.90  
Good to choice heavy 20.25 @ 20.60  
Good mixed packing 20.00 @ 20.25  
Good to choice heavy 19.75 @ 20.15  
Fair to good 19.50 @ 19.75  
Common to fair heavy 19.00 @ 19.75

Good to choice pigs 18.50 @ 19.25  
With 40,000 sheep, head and 30,000 at Kansas City and Omaha combined, a crash would have been certain if the proportion of the fat stuff had not been small. Good to choice lambs were steady at \$17.50 @ 18, under that the market being irregular. Feeders sold at a range of \$15.50 @ 16.75, a \$17 quotation being doubtful.

## ELKHORN RESIDENT SUCCUMBS TO ILLNESS

F. H. Eames, Editor of the Elkhorn Independent Passed Away at His Home Early This Morning.

F. H. Eames for the past nineteen years editor of the Elkhorn Independent died at his home in that city early this morning after a week's illness. Mr. Eames is well known in Janesville, having visited here many times.

Born in Spring Prairie, on July 29th 1873, the deceased was 45 years of age at the time of his death. He left Spring Prairie when a small boy and moved to Elkhorn where he has lived practically all his life.

Mr. Eames has operated the Independent at Elkhorn for nineteen years and has watched it grow to one of the most thriving weeklies in this section of the state. A kind husband and a loving father, his death will be keenly felt by his many friends.

He leaves to mourn his loss besides a loving wife, two sons, Clifford, who is with the American forces in France and Claude who resides at home. Notice of the funeral will be given later.

## CUTICURA HEALS RASH

"When my little boy was two months old a rash broke out on his face and it kept spreading until his face and the back of his head were covered. It soon developed into large, deep eruptions, and itched very much and he would scratch and rub so that he could hardly sleep night or day. His face was a solid scale. His hair was thin and dry and nearly all of it fell out. This lasted seven months."

"We were told it was eczema and we got a free sample of Cuticura Soap and Ointment. After using it three days we saw a great change so we purchased more, and when we had used two and a half boxes of Ointment with two cakes of Soap his head and face were healed." (Signed) Mrs. O. R. Wilton, R. F. D. 1, Roxbury, Ohio, August 8, 1917.

For every purpose of the toilet Cuticura Soap and Ointment are perfect. Sample Each Free by Mail. Address post card to Cuticura, Dept. R, Boston. Sold everywhere. Soap 25c. Ointment 25c and 50c.

## HIGH SCHOOL STUDENTS ENTERTAINED BY TALK

The high school students were entertained yesterday morning by a talk by Prof. A. West, telling of the trip to the state fair which Prof. West and thirteen young people made. Mr. West gave a very interesting talk on their experiences and their honors at the fair. The Janesville delegation were fortunate enough to win several prizes. Outstanding in the list of winners is Miss Florence Kehoe, a former high school student, who out of twenty-four exhibits won twenty-one premiums.

The senior class met Friday and elected the following officers for the coming year: President, Edward Fisher; vice-president, Marjorie Steed. The members chose Mrs. J. R. Whittier as class adviser. The school has recently added a new teacher to its ranks with the coming of Miss Nellie Mullens, who will teach in the commercial department.

On sale at St. Joseph's Convent, identification cards and pocket folders for soldiers and sailors. Also numerous religious articles.

## THE QUESTION.

Many Janesville and Rock county residents who were listed in the first draft and given deferred classification, have received cards to appear before the local board of September 20th to show cause why they should not be placed in some productive line of business. This membership of the draft board is anything but a bed of roses and the responsibilities placed upon the shoulders of the men who have so loyally worked for the government's interests, is becoming most burdensome. However, they stick to their places most manfully and are ready to do the best they can for the nation.

It is unjust to the men who comprise this draft of the first district of Rock county or of the second district of Rock county or any other district, to criticize their actions. They seek to do their duty as laid down for them and if in a few isolated cases mistakes are made, the great responsibility since this war began, greatly overbalances the minor discrepancies. These men are loyal to the core and anxious to do their duty, and their full duty, and they are giving of their time and experience to aid these men inducted into service the proper start.

It is a great problem to deal wisely with each man that comes before the draft boards, and put him where he will do the most good. There are men fighting in the trenches who are far more needed in some munition shop. In the trenches they count only as one man each. In the shop their high degree of technical skill might move along munitions that would dispose of a whole company of the foe.

The English have worked out this problem carefully. They say there is a great tendency to highly skilled men to get into some line of work like driving an automobile, which almost anyone could do. Men who were of great value in such work as dentistry, badly needed to keep the soldiers' teeth in it condition, have been found merely driving cabs, which could be done on a plain by anyone.

A commanding officer may have such men serving as orderlies, or in other positions of minor responsibility. The officers may hate to give them up because they are useful. But their special gifts would frequently be far more useful somewhere else.

There are no doubt many highly skilled mechanics serving as doughboys among our troops, who are wanted to build airplanes and ships.

There are many employers who represent a man as being more indispensable than he really is. His place could be filled, and he ought to go to the trenches. But the employer objects to the bother of breaking in a new man, and the draft board is not inclined to exempt him.

So the careful study of each man's capabilities is one of the big problems of the war. The draft boards have a problem before them that will call for all their brains and firmness. All personal considerations should be set aside, and the need of the country should be the predominant thought.

## TRUE PATRIOTISM.

True patriotism is not measured by mere action. By the purchase of Liberty Bonds and War Savings Stamps or by any public utterances in which they have wrapped themselves in the Star Spangled Banner and called themselves the hundred per cent type of patriot. These self-same hundred per cent chaps are somewhere over there and not here at home prating about their loyalty. These real, genuine, dyed-in-the-wool patriots do not have to wrap themselves in the American flag, never are wrapped in the American flag until it is tattered, and their grave after they are dead, making the supreme sacrifice for the world. These are the hundred per cent chaps you hear about and read about.

But behind him are the millions of ninety-nine and nine-tenths patriots who can not so across, but who can do their share here at home and gladly and willingly undergo individual self-sacrifices, do double work when needed, and are always ready to go. They are the "Y" hints in Europe, we have the "Y" hints at home that are doing just as great a work as those abroad for the men who are called to the colors. It is to meet this demand that the present drive is on. Respond to it as man to man for no religion or creed is asked of those they entertain.

## CONSERVING AUTOMOBILES.

The War Industries Board has made a drastic reduction in the number of passenger automobiles that can be manufactured during the rest of the year. It seems quite possible that no new pleasure cars will be made next year. Automobiles have therefore become one of the staples of the nation that must be conserved like any other. Hereafter the majority of automobile owners have thought little about preserving their machines.

When you buy a house it should last your family one hundred years. A young home and a carriage should be good for fifteen years with good care. A piano ought to last twenty-five years.

But the average automobile is traded off in three years at least, and a great many of them go in a year. That is not wholly because new and more desirable styles come along. A great many of them under hard wear and rough riding have developed some mechanical defects.

Much of this rapid decay could be saved by more careful handling. The car that is forced at high speeds around corners and over rough roads is subjected to a strain such as no other

or machinery ever has to meet.

Many people are not satisfied with a week-end run unless it has covered 150 to 200 miles. If they would be content to visit places nearer home and run at lower rates of speed, the life of the machine could be greatly prolonged.

The people who are wearing out their cars by fast running and long mileage are likely to find in a year or two that equally good machines will command a very high price. Cars are going to become scarce. Those who want to keep running them and have them in good condition without paying exorbitant prices, should nurse along the old car very carefully.

## UTILIZING LABOR.

The workers within the western wheat belt harvested the crop in that section this year without calling on their labor. This is due to the United States employment service, the farm bureaus, and like agencies.

Heretofore it was regarded as nobody's business whether the farmers got help or not. If the crops spoiled for lack of labor, we all paid high prices, but no one did anything to help. Now it is realized that our labor resources are not well distributed. There commonly are enough workers in the country, if they can be collected and sent to the job.

After the war let us hope no employers will have to complain that they can't fill their orders because they can't get the help. Frequently this complaint was made by men who never attempted any consistent advertising to get the needed workers. Between the services the newspapers can render, and those of the new government agencies, our labor resources should be better utilized than ever before.

## THE SLACKER HUNT.

Forty thousand alleged slackers are reported rounded up in New York and near-by cities. It may be said that these men are largely cowards, who do not fight, or toughs, who would be a demoralizing element. Still they can exercise all the toughness they want against the Hun. If they get their mind up, they may be just rough enough to give the Boche useful instruction.

The larger cities contain riff-raff that should be carefully rounded up. Many of them are degenerate enough so they would pose no physical test. But there are plenty that are perfectly able-bodied. In the trenches they may be shockers who will dodge all day possible.

Still the experiences of army camp life will do a lot for them. For the first time in their lives they will come up against sharp discipline. They will find that the man who tries to dodge duty has a very unpopular time of it, and they will get out better if they take their share and come through in a decent way.

Farmers can not complain that Dame Nature has not been good to them this year. With the average grain yield greater than ever, with hedges at the wonderful prices already contacted for and corn in the condition it is, no one can justly complain.

Instead of having to send out police to drag the registrants in by the scruff of their necks, as the Germans predicted, the draft boards almost had to call on the police to protect them from the clamors of the men demanding to be registered.

We have enjoyed hellish Mondays, wearisome days, meadow days, and now "gasolineless" Sundays, the hardest blow of all. However, we have survived the others, so why worry about the immediate future if it helps win the war?

There is a Janesville boy somewhere over in Germany in one of the prison camps and the chances are that he will return to us safe and sound. His fate is far better than those poor boys who lie buried beneath the soil of sinner France.

That new Jackson street bridge is just as essential to Janesville as a new Liberty bond issue is to the nation. We can compass both without half trying and still have money left for War Savings Stamps.

The men who don't dare wear a straw hat down town on a warm afternoon after "Hail Hat Day" are usually among those who deplore the folly of women's fashions.

As we are urged by the government to survey all our resources, the boys have carefully marked the number and location of all jars of jam and preserves.

But now there is no exemption from the draft on account of marriage, some of the boys have no regular engagement Saturday nights and Sundays.

The eagerness with which the German soldiers advance to the attack seems to be explained by the hope they entertain of being taken prisoners.

The people who find most fault about the strain of these war days are often the same ones who a few years ago wished there was something doing.

However, with razor blades scarce, Uncle Reuben may find his whiskers

so fashionable that he will have them cut off so as not to look in style.

While advancing in France, the Germans evidently had the forethought to train in a lot of retreat specialists.

The luscious smell of canning fruit makes an old bachelor lonesome and wish he had the courage.

So far the court plaster people have not raised any kick about safety razor blades being short.

## WHO'S WHO in the Day's News

Rear-Admiral Henry B. Wilson, Commanding the American naval forces based on the French coast is the way in which the present job of Rear-Admiral Henry B. Wilson is officially designated.

In Washington, it is a huge job, too, and "Stormy" Wilson, as he has been known since his Annapolis days, has been his job unofficially, even bigger during his command.

Admiral Wilson is building up a tradition of good will coupled with efficient command. He compares with the similar link between France and the United States that Pershing and his soldiers are forging further inland. French naval men have expressed their delight in a hundred ways at the courage, audacity and seamanship skill of Admiral Wilson's forces.

Wilson is the personification of energy, said one of his intimate friends. "At the same time he is painstaking to the last degree. The never spares himself, but is on the alert all the time. He is an excellent organizer and a splendid administrator. His nervous impetuosity and eagerness to get things kept every man under his own toes."

When he suggests anything to his officers they are more than anxious to do more than he expects of them. This was shown by the results of the Christmas appeal which Wilson made. And there have been few acts of the Americans in France that have made a better impression on the French people than did the Christmas appeal sent to all the American ships on the French coast last December.

The commander of the patrol force feels that it would be a privilege on the part of the officers and men of our force if we shared our Christmas with the widows and children of (here he named the old French seaport which has become the chief American base) to whom this war has brought so many hardships. It is therefore suggested that each ship and the base make a small contribution for the purpose. Such sums may be subscribed will be given to the proper French authorities for distribution, with a Merry Christmas from the American navy.

The fund raised exceeded all expectations. Admiral Wilson was born in Camden, N. J., on February 22, 1881. His friends declare that Admiral Wilson is one of the handsomest, if not the handsomest man in the whole navy. He likes to talk and can display more eloquence in argument than any officer in the navy, without, however, displaying rancor or harboring any sort of intolerance; he simply doesn't talk unless he is sure he is right, and it makes him impatient when the man he knows is wrong tries to convince him.

of any security is what will it be worth when the loan comes due. Will it be there representing just so much wrecking value, will it be worth as much as when the loan was taken on, or will it be worth more; at any rate will the security be ample?

In our twenty-five years' experience with farm lands as security we have always found the same land there when the loan came due, more for acre, producing crops, always worth as much as when the loan was taken on, and in most cases worth a great deal more.

We recommend our Farm Mortgages for the safe investment of your funds. Our best reference is the host of satisfied customers who have dealt with us without the loss of a dollar.

## Whitewater News

Whitewater, Sept. 14.—The Normal school opened Monday and will be in session until the 15th. There are many calls taking the young people of today into other lines and the demand for teachers is not large. There are many new members among the faculty. The school has been designated by the war department as one of the institutions in the state to install a unit of the army training corps. Students between the ages of 18 and 21 will receive military training. The school is well equipped for the handling of these men. The large athletic field will make an excellent drill ground and the gymnasium will be the center of instruction.

Laboratories are to be erected and ready by October 1st and will be built south of the gymnasium. Only able bodied students will be accepted in the corps and they will receive \$30 per month, their board, lodging, uniforms and other military equipment. Myron Zella died suddenly at his home on the East Side yesterday afternoon from a stroke of apoplexy. He has not been in good health for many years but has been able to get around and work until a few weeks ago when he became ill. He leaves a wife, one son Harry, of Milwaukee, two daughters, Mrs. Grace Schneider and Mrs. Eva Conroy of this city. Mr. Zella was a veteran of the civil war and since he made this city his home. When able to work he was a carpenter by trade.

## INDUSTRIAL BOARD WILL CONVEY IN MILWAUKEE, SEPT. 21

PUBLIC HEARING WILL BE CONDUCTED AT THE REPUBLICAN HOUSE CONCERNING MINIMUM WAGE PETITION.

## URGED TO ATTEND

Local Employers of Female and Minor Help Are Requested to Attend the Meeting on Saturday.

At the Republican House, Milwaukee, next Saturday, September 21, at 9:30 A. M., the Industrial Commission of Wisconsin, Geo. P. Harnrecht, chairman, will conduct a public hearing concerning the minimum wage petition presented last May to the commission. This hearing especially concerns the wages paid to females and minors throughout the state and, according to the resolution passed by the commission, "there is a reasonable cause to believe that the wages paid to the majority of the females and minors whose names are set forth in Exhibit B of said petition, as well as other females and minors throughout the state, are not being paid a living wage." All interested parties are urged to attend this meeting and participate therein.

All employers of female and minor help in the city have been notified by the Industrial Commission by the Chamber of Commerce. We quote from the resolution as follows: "That there is reasonable cause to believe that the wages paid to the majority of the females and minors whose names are set forth in Exhibit B of said petition, as well as to other females and minors throughout the state, are not being paid a living wage." The meaning of that term as used in Section 1722a of the Revised Statutes of 1917.

IT IS THEREFORE ORDERED that a public hearing be held at the Republican House in the city of Milwaukee on September 21, 1918, at 9:30 A. M., for the purpose of considering the minimum wage petition and for the purpose of an advisory wage board pursuant to section 1722a of the statutes.

AND IT IS FURTHER ORDERED that notice of such hearing be given through the press, and that all interested parties be invited to attend such meeting and participate therein.

At such hearing the following matters will be considered:

(1) Suggestions as to how such board shall be organized and the number of persons that shall constitute such board.

(2) Suggestions as to the persons who will fairly represent employers of females and minors throughout the state, and who will fairly represent female and minor employees thereof.

(3) Suggestions as to persons who will fairly represent the public thereon.

"INDUSTRIAL COMMISSION OF WISCONSIN."

Fred M. Wilcox,  
Thomas F. Konop,  
Commissioners.

## ANNIVERSARY OF BATTLE

Today is the anniversary of "Antietam" day. One of the most desperate battles of the civil war took place on this day, September 17, 1862. It was there that Col. Thomas H. Ruger of Janesville, in command of the 12th Wisconsin Infantry, lost two-thirds of his regiment while he, being in the thick of the battle, escaped with only a slight wound. His two staff officers remained after the conflict was over.

The annual reunion of the 12th Wisconsin is now in session at the Hotel Wisconsin. It is not likely that more than a dozen very old veterans are in attendance. This reunion will probably be the last, this side of the great meeting beyond.

## YOUNG GIRL RUNAWAY FROM CHICAGO HELD

Picked up by the police last night while alone on the streets, a juvenile named Mary Jane Smith, who admits she ran away from her home in Chicago, is being held at the city lock-up awaiting the arrival of relatives from Chicago. The young girl was reported missing because she was held in the city jail far from home and relatives.

Joe Murray, a Chicago youth, who has been living in this city for a few weeks, is now in custody of the police. He was taken into custody last evening by the local police. It developed, however, this morning that the young man was not wanted in connection with the recent large disappearance and he was released.

## ZEB O. BOWEN HELD FOR ALLEGED THEFT OF RAILWAY GOODS

STAR READER AND "NEW PARADISE" OWNER ARRESTED ON CHARGE OF STEALING GOODS FROM FREIGHT CARS.

## U. S. MAY PROSECUTE

Bowen Likely to Be Tried in Federal Court in Madison, the Government Having Control of Railway Property.

Zeb O. Bowen, star reader, compiler of astronomical data for the future of the movements of the heavenly bodies, and widely known as the keeper of the "New Paradise" at 1719 Madison street, was arrested last night by police officers on a charge of larceny preferred by officials of the Chicago, Milwaukee and St. Paul Railway company. Bowen, who has been working for the railway for some time, was arrested after his home had been searched and a large amount of clothing found which he is charged with stealing from freight cars of the company.

The astronomical expert was brought up in municipal court this morning for preliminary examination, where it was found, for a conference with District Attorney S. G. Dunwiddie and United States Court Commissioner S. D. Tallman, that Bowen could be held for trial in a federal court.

Bowen's arrest was brought about through investigation by William T. Bowen, a detective of Madison, who, after the loss of goods from freight cars here, with Detective Sheel, police took Bowen to his home and then went through the house from top to bottom in search of hidden booty. Some two dozen new shirts were found, and a number of suits of underwear and expensive blankets. Bowen stoutly denied the theft of the articles, asserting that he had bought everything the night before last at a clothing store in Chicago.

Chatter of the police pointed out that the shirts and underwear were of various sizes, some of them large enough for a man twice the size of Bowen, and that they came far from being fit for his wear.

Bowen, who is about forty-eight years old, has gained considerable notoriety in this city for his ability to forecast all future events by reading the heavenly bodies. By means of newspaper advertisements, he has tried to spread information on the subject of his "clairvoyance," which he claims holds the reply to every question that can be asked, and lays bare each individual act of each human being between the stars.

## ENFORCEMENT OF "WORK OR FIGHT" ORDER TO BEGIN

Twelve Registrants Ordered to Appear Before Local Board Friday Morning Under Crowder's Draconic Order.

Actual enforcement in this district of the famous nationwide "Work or Fight" order issued by Provost Marshal General Crowder will begin Friday morning when twelve registrants will appear before the local board at the postoffice to submit information to show reasons for their failure to be working in a productive occupation or employment. This information is to be given by affidavit or in other ways and is to be carefully considered by members of the local board who will then decide whether the registrant shall be ordered to get into some useful form of work.

At a special meeting of the board, held last Friday, the questionnaires of all registered men in Classes II, III, and IV were carefully considered by the board. The result of the examination was that twelve men were found to be doing non-essential work, were ordered to appear on the coming Friday under the "Work or Fight" regulations.

The newly organized Community Labor Board for this district, composed of J. P. Cullen, chairman; J. J. Zoller, J. H. Smith, J. H. Smith, and J. H. Smith, in hearty co-operation with the local draft board with the view of putting men engaged in non-essential work on necessary work.

Twelve men were found to be doing non-essential work, were ordered to appear on the coming Friday under the "Work or Fight" regulations.

There follows a copy of the form card to be sent out to registrants who are engaged in non-essential occupations:

"Local Board for Division No. 1, of Rock County, Wisconsin, Janesville, Wis. You are hereby directed to appear in accordance with Sections 1213 and 1214 of the United States Code, at the local board on the day of . . . 19. at . . . o'clock . . . M. for the purpose of presenting such evidence as you may have in your possession, or otherwise, bearing upon the reasons for your non-engagement in a productive occupation or employment."

## SEVERAL WAYS TO SAVE COAL EXPLAINED

[BY ASSOCIATED PRESS.] Philadelphia, Sept. 17.—Various ways to save coal and still keep warm are pointed out by the general committee of the anthracite coal operators in a series of suggestions given out here on conservation of the fuel during the winter months. Briefly they are:

Start furnace and kitchen range fires as late as possible. Forget the first few cold fall days.

Raise curtains during day to admit sunlight and shut out frost. Dispense with awnings as they shut out the sun.

Weatherstrip doors and windows and put asbestos around all furnaces, pipes and cellar pipes used for heating purposes.

Reduce the high temperature to 67 degrees. Do not wait until the thermometer shows 4 degrees before closing drafts. By that time extra amount of coal will have been consumed and wasted according to all economic rules.

Bedrooms, where windows are opened for the night or otherwise, should be shut off from heat. Use blankets and feel better in the morning.

Wear heavier clothing. This materially saves body heat. Thoroughly clean soot from pipes and radiators and do not mind doing a little work in the cellar seeing that window panes are tight and weatherstripped like the other parts of the house.

Use oil, wood, coke and bituminous when possible. Use gas for cooking and heating. Gas lighting at night aids in heating the home, stores and buildings where used.

Use heavy draperies on doors and windows for interior home decoration. This aids in husbanding interior heat supply.

CARS COLLIDE: The automobiles owned by John McDonough and Wm. Pinnick collided at the corner of Madison and Jackson streets early this afternoon doing minor damage to both cars. No one was injured.

## BAGGAGE HUSTLER BEQUEATHED A FORTUNE

Clinton, Ill., Sept. 16.—Robert William Entwistle, aged 35, died at his home here today of a heart ailment and now he is among the idle rich.

Entwistle formerly wrestled trunks for a living. He found it hard to make a good day's work and his mother didn't help matters any. So when the business of smashing baggage got dull he picked up odd jobs about the city.

One day while cleaning out a cellar for a more fortunate fellow-citizen, a mailman handed him a letter. It was postmarked Cincinnati, O. Carelessly placing it in his pocket, he spat upon his hands and went on about his business. Arriving home that evening he recalled the letter. With his mother peering over his shoulder he opened it.

"Your uncle, William Entwistle," the letter read, "has died and bequeathed his entire fortune of \$118,000 to you. You did not alter his view of life. Entwistle declares he will continue smashing baggage."

Wanted—Meter readers. Apply at office of Water Department City Hall, before 8 A. M. Thursday, Sept. 19.

Eliminate German  
Milwaukee—German language instruction will be given in only five grade schools in Milwaukee this season. The enrollment of pupils in German classes which closed last week, eliminated instruction in that language from twenty-nine elementary schools in which it was taught last year.

Enrollment for German classes has decreased from 16,453 one year ago to 7,500 at this time. In the schools in which German instruction is retained there are only 1,543 in such classes. Two years ago approximately 30,000 children were studying German in Milwaukee grade schools.

## 70 MENTO TEXAS CAMP IN OCTOBER

Local Board Will Send Second Largest Draft Contingent to Waco, Texas, During Five-day Period Beginning October 7th.

Janesville district of Rock county must furnish seventy general service men as its quota for the draft of this month. The exact contingent date for the contingent has not yet been fixed, but it will be some time during the five-day period beginning October 7th.

The local board expects to fill its quota with men who registered previous to the last registration day so that it will not be necessary to register men to complete the contingent. Notices to the men affected by the October call will shortly be mailed out by the local board.

This contingent of seventy men is the second largest to be sent by the local board under the selective service regulations. The largest number of men to be sent at any one time by the local board was the July increment of 148 selects.

## Edgerton News

Edgerton, Sept. 17.—H. D. Stoppach of Schlesinger's was in the city yesterday with a friend and had a very successful crop of tobacco during the past season. The crop was harvested and hung in a shed. The tobacco began to turn brown and they had to be sold at a low price. Mr. Stoppach is disappointed in the result of the crop and is improving his operation at the Moore hospital Saturday morning and is improving nicely.

Marlin Baker is ill at his home on Church street.

East Koshkonong  
East Koshkonong, Sept. 16.—Mr. and Mrs. John Donahue motored back to Chicago, Monday evening, after spending two weeks at the Grogan farm.

Fred Lonke and son, Elmer, were called to Port Atkinson, Saturday.

Miss Mary Ann and Florence Groh returned Monday to Port Atkinson to resume their school work as seniors. Mr. and Mrs. Bertram were called in Port Atkinson. Fred is constructing a new silo.

Edward Donovan and James Donahue and Mrs. J. J. Groh motored to Chicago, Tuesday evening.

William Hoag has completed Mr. Carlson's tobacco shed.

Now before you worry any more about the Jap servant or dear kind Uncle Lucky, I'll tell you right away that he got back in time to cook the dinner for the two little rabbits. That he got back in time to cook a late dinner, for it was fourteen o'clock when they sat down to the table, and that's a pretty late hour even in rabbitville, so they tell me.
